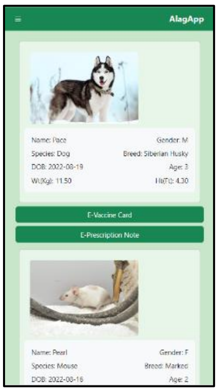
AlagApp: Veterinary Clinic Pet Monitoring and Online Consultation System

Client User Manual

The Client is the other end of the system to which the Veterinary Clinic's clients are the users of this side of the system.



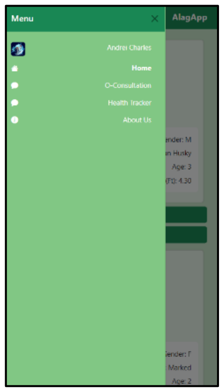


Fig. A Fig. B Fig. C

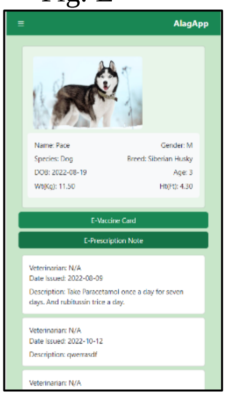
The client will be prompted by a log in page to which the user is required to enter their email and password as shown in Fig. A.

The client is then welcomed with the Home Page of the system to which the user's pet including their profile and E-Vaccine Card and E-Prescription Note information are collapsed (hidden) at first as shown in Fig. B.

On Fig. C. clicking the menu button (shown as this ☰) will show a menu on the left side of the screen with a list of: User Profile (The user's image and name will be shown instead), the Home, O-Consultation, Health Tracker, and an About Us.

Fig. D

Fig. E



Clicking the E-Vaccine Card will expand the list as shown in Fig. D.; Meanwhile, clicking the E-Prescription Note will expand it showing the corresponding list as well. Clicking them again will collapse (hide) the list.

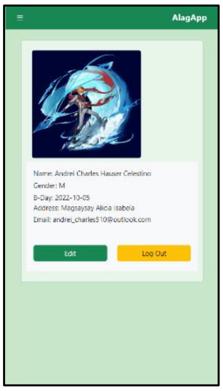


Fig. F

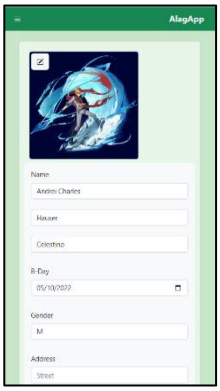

Fig. G

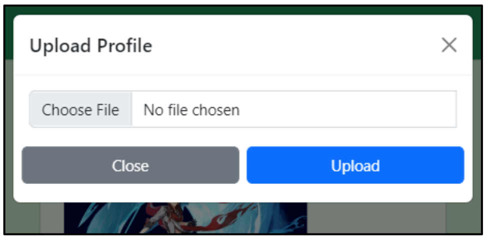

Fig. H

Clicking the User Profile on the menu will direct the client to their profile page. Here, the client firstly sees their user information and profile picture with an ‘Edit’ and ‘Log Out’ button as shown if Fig. F.

Clicking the ‘Edit’ button will open a form to which the client can edit their user information as shown in Fig. G.

If the user clicks the ‘edit’ icon on the upper left corner of the image, a pop-up form will appear to which the client can upload their profile picture in it as shown in Fig. H.

Fig. J

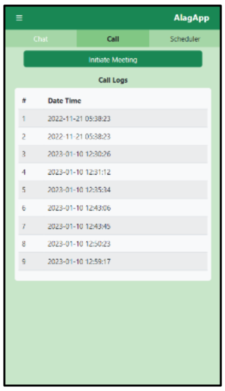

Fig. K

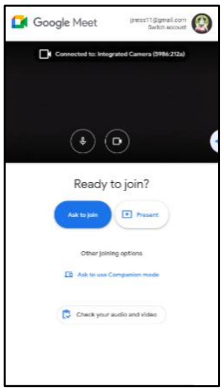

Fig. L

Clicking the O-Consultation from the menu will direct the user to the Chat Page first as shown in Fig. I. Here the client can see their conversation with the admin (veterinarian).

Clicking the image icon will show a pop-up form to which the client can upload a photo and send it to the admin as shown in Fig. J.

Clicking the ‘Call Tab’ directs the client to a list of his/her call logs with a button of ‘Initiate Meeting’ as shown in Fig. K. Here the client can join the meeting the veterinarian sets.

Then the client will be directed to the meeting page of the conference as shown in Fig. L. The client can revert back to the system by clicking the back button on their device.

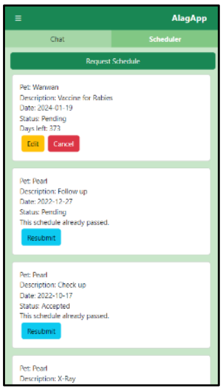

Fig. M

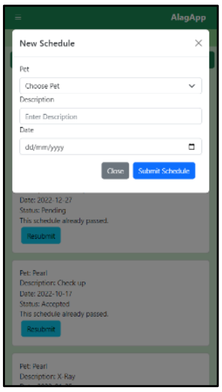

Fig. N

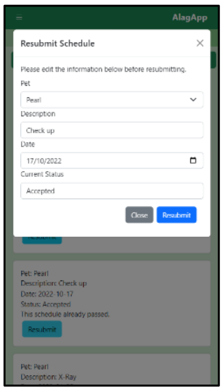

Fig. O

Clicking the 'Scheduler Tab' directs the client to a list of scheduler information under their accounts as shown in Fig. M.

Here, a 'Request Schedule' above the list will show a pop-up form to which the client can enter their scheduler information as shown in Fig. N.

Clicking the 'Edit' or 'Resubmit' will show a pop-up form where the client can edit their scheduler information as shown in Fig. M and Fig. O.

The 'Edit' button is shown if the date of the scheduler is not yet passed. And the 'Resubmit' button will appear if the date is passed and not yet completed.

Hence, a 'Cancel' button appears while the status is still 'Pending', clicking this will cancel their schedule and returns a status 'Cancelled' to the admin.

Fig. Q

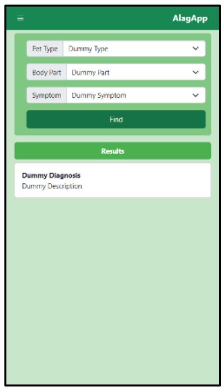

Fig. R

Clicking the Health Tracker menu will direct the user to the Health Tracker Page. Here the client will always be welcomed by one dropdown menu first (Pet Type) as shown in Fig. P. The second dropdown menu appears (Body Part) as shown in Fig. Q. When the client finally selects a value on the second dropdown menu, the last dropdown menu (Symptom) will appear as shown in Fig. R. If the three-dropdown menus are filled, the client can click the 'Find' button and an information will appear based on the selected values.
